LEGAL REPRESENTATIVE

The legal representative of the Company for the financial year ended 31 December 2025 and up to the date of this report is Mr. Nguyen Duc Quan - General Director.

THE AUDITOR

The accompanying financial statements for the financial year ended 31 December 2025 have been audited by UHY Auditing and Consulting Company Limited.

RESPONSIBILITY OF THE BOARD OF GENERAL DIRECTORS

The Board of General Directors of the Company is responsible for preparing the Financial Safety Ratio Report that fairly and reasonably reflects the financial safety ratio at the reporting date. As the preparation of this Report involves various information presented in the financial statements, in preparing this Report as well as all other indicators of the financial statements in general, the Board of General Directors is required to:

STATEMENT OF THE BOARD OF GENERAL DIRECTORS (CONT'D)

RESPONSIBILITY OF THE BOARD OF GENERAL DIRECTORS (CONT'D)

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- Prepare the Financial Safety Ratio Report based on a going concern, unless it cannot be assumed that the Company will continue its business operations;
- Establish and maintain an effective internal control system to mitigate the risk of material misstatement, whether due to fraud or error, in the preparation and presentation of the Financial Safety Ratio Report.

The Board of General Directors hereby confirms that the Company has complied with the requirements set forth in preparing the Financial Safety Ratio Report.

The Board of General Directors of the Company ensures that the information system and internal control system have been established and maintained to ensure that the financial safety ratio is fairly and reasonably reflected at any point in time, in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 of the Ministry of Finance, prescribing financial safety indicators and measures applicable to securities trading organizations failing to meet financial safety indicators, as amended and supplemented by Circular No. 102/2025/TT-BTC dated 29 October 2025.

The Board of General Directors of the Company undertakes that it has complied with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 of the Ministry of Finance, prescribing financial safety indicators and measures applicable to securities trading organizations failing to meet financial safety indicators, as amended and supplemented by Circular No. 102/2025/TT-BTC dated 29 October 2025, in preparing and presenting the Financial Safety Ratio Report as at 31 December 2025.

OTHER COMMITMENTS

The Board of General Directors affirms that the Company has complied with Decree No. 155/2020/ND-CP dated 30 December 2020 of the Government, as amended and supplemented by Decree No. 245/2025/ND-CP dated 11 September 2025, detailing the implementation of a number of articles of the Law on Securities. The Company has not violated its information disclosure obligations in accordance with Circular No. 96/2020/TT-BTC dated 16 November 2020, as amended and supplemented by Circular No. 68/2024/TT-BTC dated 18 September 2024 and Circular No. 18/2025/TT-BTC dated 26 April 2025 of the Ministry of Finance, providing guidance on information disclosure in the securities market.

On behalf of the Board of General Directors,

Nguyễn Duc Quan
General Director
Ha Noi, 27 March 2026

AUDIT REPORT OF FINANCIAL SAFETY RATIO REPORT

*Regarding the financial safety ratio report as at 31 December 2025
of Asia Pacific Securities Joint Stock Company*

**To: Board of Management and Board of General Directors
Asia - Pacific Securities Joint Stock Company**

We have audited the Financial Safety Ratio Report as at 31 December 2025 of Asia-Pacific Securities Joint Stock Company (hereinafter referred to as the "Company"). The Company's Financial Safety Ratio Report, dated 27 March 2026 and presented from page 06 to page 32, has been prepared by the Company's Board of General Directors in accordance with the regulations on preparation and presentation of reports as prescribed in Circular No. 91/2020/TT-BTC dated 13 November 2020 of the Ministry of Finance, which provides for financial safety ratios and remedial measures applicable to securities business organizations that fail to meet the prescribed financial safety ratios, as amended and supplemented by Circular No. 102/2025/TT-BTC dated 29 October 2025.

Responsibilities of the Board of General Directors

The Board of General Directors of the Company is responsible for the preparation and fair presentation of the Company's Financial Safety Ratio Report in accordance with the legal regulations on the preparation and presentation of such report as prescribed in Circular No. 91/2020/TT-BTC dated 13 November 2020 of the Ministry of Finance, which stipulates financial safety ratios and remedial measures applicable to securities business organizations that fail to meet the prescribed financial safety ratios, as amended and supplemented by Circular No. 102/2025/TT-BTC dated 29 October 2025. The Board of General Directors is also responsible for such internal control as it determines is necessary to ensure that the Financial Safety Ratio Report is free from material misstatement, whether due to fraud or error.

Responsibilities of the Auditors

Our responsibility is to express an opinion on the financial safety ratio report based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements, plan and perform the audit to obtain reasonable assurance whether the financial safety ratio report are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Safety Ratio Report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial safety ratio report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial safety ratio report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of General Directors, as well as evaluating the overall presentation of the Financial Safety Ratio Report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditors' opinion

In our opinion, the Financial Safety Ratio Report of Asia Pacific Securities Joint Stock Company as at 31 December 2025, has been prepared and presented, in all material respects, in compliance with the regulations on the preparation and presentation of reports as stipulated in Circular No. 91/2020/TT-BTC dated 13 November 2020, issued by the Ministry of Finance, which prescribes financial safety indicators and measures for securities trading organizations that fail to meet financial safety criteria, as amended and supplemented by Circular No. 102/2025/TT-BTC dated 29 October 2025.

AUDIT REPORT OF FINANCIAL SAFETY RATIO REPORT (CONT'D)

Policy on report preparation and limitation on the use of audit reports

The Financial Safety Ratio Report is prepared to comply with the regulations on the preparation and disclosure of the Company's Financial Safety Ratio Report. This report is not intended to be attached to the financial statements and is solely for use by the Company's Board of General Directors for reporting purposes as required by the State Securities Commission. Accordingly, this report may not be suitable for other purposes.

Others matters

Asia-Pacific Securities Joint Stock Company has prepared its financial statements for the financial year ended 31 December 2025 in accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System applicable to securities companies, and related legal regulations on the preparation and presentation of the financial statements. We have issued an unqualified audit opinion on those financial statements on 27 March 2026.

NOTES TO FINANCIAL SAFETY RATIO REPORT

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

1. GENERAL INFORMATION

1.1. STRUCTURE OF OWNERSHIP

Asia-Pacific Securities Joint Stock Company (hereinafter referred to as the “Company”) was established under Business Registration Certificate No. 0103015146 issued by the Hanoi Department of Planning and Investment on 21 December 2006, with an initial charter capital of VND 60,000,000,000. The Company was granted its Establishment and Operation License No. 37/UBCK-GPHĐKD dated 26 December 2006 by the State Securities Commission of Vietnam, as well as the Amended License for Securities Company Establishment and Operation No. 07/GPĐC-UBCK dated 23 January 2015. According to Amended License No. 338/UBCK-GP dated 07 July 2010 issued by the State Securities Commission of Vietnam, the Company’s charter capital was increased to VND 390,000,000,000.

Amendment License No. 81/UBCK-GP dated 27 September 2021 issued by the State Securities Commission of Vietnam, under which the Company’s charter capital is VND 780,000,000,000. According to Amended License No. 14/GPĐC-UBCK dated 28 January 2022 issued by the State Securities Commission of Vietnam, the Company’s charter capital was increased to VND 830,000,000,000.

Amended License No. 77/GPĐC-UBCK dated 27 September 2023, issued by the State Securities Commission of Vietnam, reflects a change in the Company’s Legal Representative.

The registered address under the amended license is: 3rd Floor, Grand Plaza Building, No. 117 Tran Duy Hung Street, Yen Hoa Ward, Hanoi City.

The Company’s Charter was initially issued in 2006 and subsequently amended on 11 January 2022.

As at 31 December 2025, the Company had a total of 28 employees (as at 01 January 2025: 38 employees).

The Company's subsidiaries are as follows:

Subsidiaries	Place of incorporation and operation
Ho Chi Minh Branch	11th Floor, MB Sunny Tower Building, 259 Tran Hung Dao, Cau Ong Lanh Ward, Ho Chi Minh City
Hue Branch	No. 28 Ly Thuong Kiet Street, Vinh Ninh Ward, Thua Thien Hue Province

1.2 BUSINESS LINE AND PRINCIPAL ACTIVITIES

Principle activities

Securities brokerage; Proprietary trading; Securities investment consultancy; Securities depository services.

Investment restriction

The Company's investment portfolio and restrictions are aligned with the objectives and investment policies outlined in its Charter and the prevailing securities laws:

1. Securities companies are prohibited from purchasing or investing in real estate, except for properties intended for use as headquarters, branches, or transaction offices directly serving the securities company's operations.
2. Investments in real estate as per Clause 1 above, along with fixed assets, must adhere to the principle that their residual value does not exceed 50% of the total assets of the securities company.
3. The total investment value in corporate bonds by a securities company must not exceed 70% of its equity. Securities companies licensed for proprietary trading are allowed to engage in repurchase agreements for listed bonds in compliance with relevant regulations.
4. Securities companies are prohibited from directly or indirectly conducting the following:
 - a) Investing in shares or capital contributions of companies that own more than 50% of the charter capital of the securities company, except for acquiring odd-lot shares as requested by clients.
 - b) Investing, along with related parties, 5% or more of the charter capital of another securities company.
 - c) Investing more than 20% of the total outstanding shares or fund certificates of a listed organization.

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

1. GENERAL INFORMATION (CONTINUED)

1.2 BUSINESS LINE AND PRINCIPAL ACTIVITIES (CONTINUED)

Investment restriction (Continued)

d) Investing more than 15% of the total outstanding shares or fund certificates of an unlisted organization, except for member funds, exchange-traded funds, and open-ended funds.

đ) Investing or contributing more than 10% of the total capital contribution of a limited liability company or business project.

e) Investing or contributing more than 15% of equity into a single organization or business project.

g) Investing more than 70% of equity in shares, capital contributions, and business projects, with no more than 20% of equity allocated to unlisted shares, capital contributions, and business projects.

Normal operating cycle: The Company's normal operating cycle is conducted within a period not exceeding 12 months.

2. BASIS FOR PREPARATION OF FINANCIAL SAFETY RATIO REPORT

Basis of preparation of the financial safety ratio report

The Financial Safety Ratio Report is presented in Vietnam Dong (VND) and is prepared in compliance with Circular No. 91/2020/TT-BTC dated 13 November 2020 ("Circular 91/2020/TT-BTC") issued by the Ministry of Finance, which prescribes financial safety indicators and remedial measures applicable to securities business organizations that fail to meet such financial safety requirements, and Circular No. 102/2025/TT-BTC dated 29 October 2025 ("Circular 102/2025/TT-BTC") issued by the Ministry of Finance, which amends and supplements a number of articles of Circular 91.

This Financial Safety Ratio Report is based on the financial data of the Company's financial statements as of 31 December 2025.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES

3.1 Liquid capital ratio

The liquid capital ratio is a measure of the Company's financial safety, reflecting its ability to meet financial obligations and cover potential risks arising during its business operations.

The liquid capital ratio shall be determined according to the following rules:

$$\text{Liquid capital ratio} = \frac{\text{Liquid capital}}{\text{Total risk value}} \times 100\%$$

In which, the total risk value is the sum of the market risk values (Note 3.3), the settle risk (Note 3.4) and the operational risk (Note 3.5).

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)

3.2 Liquid capital

Pursuant to Circular No. 91/2020/TT-BTC and Circular No. 102/2025/TT-BTC, available capital is defined as equity that can be converted into cash within ninety (90) days. The Company's available capital comprises:

- Owner's contributed capital, excluding redeemable preference shares (if any);
- Reserve for supplementing charter equity;
- Financial reserve and operational risk reserve funds;
- Retained earnings, excluding the amounts specified under Clause 3, Article 5 and Clause 1, Article 7 of Circular No. 91/2020/TT-BTC;
- Provision for impairment of assets;
- Deductions specified;
- Increases specified

Deductions

Deductions from the Company's available capital arising during the period include:

- Value of assets used to secure obligations of other organizations or individuals with a remaining term of more than ninety (90) days. Such asset value is determined in accordance with the provisions of Circular No. 91/2020/TT-BTC;
- The entire decrease in value of financial assets measured at carrying value, excluding securities deducted from available capital, based on the difference between the carrying value and the market value determined in accordance with Appendix II issued together with Circular No. 91/2020/TT-BTC. This amount has been presented under retained earnings (including unrealized profits);
- Items within non-current assets;
- Items within current assets, including:
 - Prepaid expenses;
 - Receivables with a remaining collection or payment term exceeding ninety (90) days;
 - Advances with a remaining reimbursement period exceeding ninety (90) days;
 - Other short-term assets.
- Deductions from available capital do not include: Provisions for impairment of financial assets recorded at book value, provisions for impairment of other assets, and provisions for doubtful debts.

Increases

Increases in the Company's available capital arising during the period include:

The entire additional value of investments and financial assets recorded at book value, excluding securities specified in Clause 7, Article 5, and Clause 5, Article 6 of Circular No. 91/2020/TT-BTC, is based on the difference between book value and market value as determined under Appendix II attached to Circular No. 91/2020/TT-BTC. These figures are generally presented under the undistributed profit indicator (including unrealized profit).

3.3 Market risk value

Market risk value is the value corresponding to the level loss which may occur if the market value of assets being owned and expected to be owned under the underwriting commitment changes unfavourably.

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)**3.3 Market risks value (Continued)**

- In accordance with Circular No. 91/2020/TT-BTC and Circular No. 102/2025/TT-BTC, market risk shall be determined for the following assets:
 - Securities in proprietary trading accounts, excluding unissued covered warrants, entrusted securities, and other investment securities. Such securities include those in the process of being transferred from the seller;
 - Securities received as support from other individuals and organizations in accordance with laws and regulations, including securities borrowed for the securities trading institution itself and securities borrowed on behalf of other individuals and organizations;
 - Customer securities received by the securities trading institution as collateral, which are subsequently used by the institution or lent to a third party in accordance with applicable laws and regulations;
 - Cash, cash equivalents, negotiable instruments, and other valuable papers owned by the securities trading institution;
 - Securities underwritten by the securities trading institution on a firm commitment basis that remain undistributed and not fully paid for during the underwriting period;

During the year, the Company incurred value at risk related to the following financial assets: cash and cash equivalents, unlisted bonds, and shares.

- The value at risk is determined

Value at risk = Net Position x Asset Price x Market risk coefficient

Market risk coefficient: Determined according to Appendix 1, Issued with Circular No. 102/2025/TT-BTC; specifically:

No	Assets	Market risk coefficient (%)
I	CASH	
1	Cash (VND)	0
2	Cash equivalents	0
3	Valuable papers, negotiable instruments in the money market, and certificates of deposit	0
II	DEBT SECURITIES	
	Listed corporate bonds	
	Listed bonds with remaining maturity of less than 1 year, including convertible bonds	0
7	Listed bonds with remaining maturity from 1 year to less than 3 years, including convertible bonds	5
	Listed bonds with remaining maturity from 3 years to less than 5 years, including convertible bonds	10
	Listed bonds with remaining maturity of more than 5 years, including convertible bonds	15

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)

3.3 Market risk value (Continued)

Asset price: Determined according to Appendix II - Securities valuation principles, issued with Circular No. 102/2025/TT-BTC; specifically:

No	Type of assets	Principles for valuation of market transactions
Cash and cash equivalents, money market instruments		
1	Cash (VND)	Account balance as of the calculation date
2	Foreign currency	VND equivalent value translated at the exchange rates of authorized credit institutions as of the calculation date
3	Term Deposits	Deposit balance plus accrued interest unpaid as of the calculation date
4	Treasury bills, banker's acceptances, commercial papers, negotiable certificates of deposit, bonds, and discounted money market instruments	Purchase price plus accrued interest up to the calculation date
Bonds		
5	Listed Bonds	-The average quoted price on the Exchange's trading system for normal transactions on the most recent trading date, plus accrued interest (if the quoted price excludes accrued interest);
		- In the event that there have been no transactions for more than two (02) weeks leading up to the calculation date, the value shall be the highest of the following:
		+ The price as at the most recent valuation date, provided it is not more than 90 days prior to the calculation date, plus accrued interest;
		+ Purchase price plus accrued interest;
		+Par value plus accrued interest;
6	Private Bonds	+ Price determined in accordance with the internal regulations of the securities company, including accrued interest.
		- The average price of the bond on the trading system of the Stock Exchange at the most recent trading date, plus accrued interest calculated from the most recent coupon payment date to the trading date (if such average price does not include accrued interest);
		- In cases where the bond has not been centrally traded on the Stock Exchange, or has not been traded for more than 15 days up to the calculation date, or has been delisted, the value shall be the highest of the following:
		+ The price as at the most recent valuation date, provided it is not more than 90 days prior to the calculation date, plus accrued interest;
		+ Purchase price plus accrued interest;
		+ Par value plus accrued interest;
		+ Price determined in accordance with the internal regulations of the securities company, including accrued interest.

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)

3.3 Market risk value (Continued)

No	Type of assets	Principles for valuation of market transactions
Shares		
7	Listed shares	- Closing price (or other equivalent term as prescribed in the regulations of the Stock Exchange) on the trading day immediately preceding the valuation date; - In cases where there has been no trading for more than 15 days up to the valuation date, or the shares have been delisted, the value shall be the highest of the following: + Book value; + Purchase price; + Price determined in accordance with the internal regulations of the securities company.
8	Shares of public companies registered for trading on the UPCOM system	- Reference price (or other equivalent term as prescribed in the regulations of the Stock Exchange) on the trading day immediately preceding the valuation date; - In cases where there has been no trading for more than 15 days up to the valuation date, or the shares have been deregistered from trading, the value shall be the highest of the following: + Book value; + Purchase price; + Price determined in accordance with the internal regulations of the securities company.
9	Shares registered and deposited but not yet listed or registered for trading	- Average value based on quotations from at least three (03) unrelated securities companies as at the most recent trading date prior to the valuation date. - In cases where quotations from at least three (03) securities companies are not available, the value shall be the highest of the following: + Quoted prices; + Price as at the most recent reporting period; + Book value; + Purchase price; + Price determined in accordance with the internal regulations of the securities company.
10	Shares suspended from trading, or delisted, or deregistered from trading	The value shall be the highest of the following: + The price as at the most recent valuation date, provided it is not more than 90 days prior to the calculation date; + Book value; + Par value; + Price determined in accordance with the internal regulations of the securities company.

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)

3.3 Market risk value (Continued)

No	Type of assets	Principles for valuation of market transactions
11	Shares of entities under dissolution or bankruptcy	80% of the liquidation value of such shares (being the share price distributed as announced by the entity under dissolution or bankruptcy, or the book value) as at the most recent balance sheet date, or the price determined in accordance with the internal regulations of the securities company.
12	Other equity interests and capital contributions	The value shall be the highest of the following:
		+ Book value;
		+ Purchase price / capital contribution value;
		+ Price determined in accordance with the internal regulations of the securities company.

- The market risk value of each asset shall be adjusted upward in cases where the securities trading institution has excessive exposure to such asset, except for securities underwritten on a firm commitment basis during the underwriting period, government bonds, and government-guaranteed bonds. The adjusted risk value shall be determined in accordance with the following principles:
 - a) Increased by 10% in case the total investment in an organization's shares and bonds accounts for from over 10% to 15% of the securities-trading organization's equity;
 - b) Increased by 20% in cases where the total value of investments in shares and bonds of a single organization accounts for more than 15% to 25% of the securities trading organization's equity;
 - c) Increased by 30% in case the total investment in an organization's share and bond accounts for more than 25% of the securities-trading organization's equity.

3.4 Settlement risk

Settlement risk means a value equivalent to a loss likely to be incurred when a partner fails to settle or transfer assets on schedule as committed.

- The company must determine the settlement risk value for the following contracts and transactions:
 - a) Time deposits at credit institutions, certificates of deposit issued by credit institutions;
 - b) Contracts for margin lending of listed securities comply with legal regulations;
 - c) Receivables within the due date from securities trading organizations and receivables from customers in securities brokerage activities
 - d) Overdue receivables.
- For the contracts specified in Points a, b, c, d, dd and g, Clause 1 of this Article, the settlement risk value before the deadline for transfer of securities, cash and contract liquidation shall be determined as follows:

$$\text{Settlement risk value} = \frac{\text{Settlement risk coefficient by partner}}{\text{partner}} \times \text{Value of assets with potential settlement risk}$$

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)

3.4 Settlement risk (Continued)

In which:

- a) The settlement risk coefficient by partner is determined based on the creditworthiness of the counterparty, following the principles outlined in Section 3.4.1
- b) The value of assets exposed to settlement risk is determined based on the principles outlined in Note 3.4.2.
- For overdue receivables, including amounts not yet received from transactions and matured contracts as specified in points a, đ, g of Clause 1, Article 10 of Circular No. 91/2020/TT-BTC, the payment risk value is determined based on the following principles:

$$\text{Settlement risk value} = \frac{\text{Settlement risk coefficient by time}}{\text{time}} \times \text{Value of assets with potential settlement risk}$$

In which:

- a) The settlement risk coefficient by partner is determined based on the creditworthiness of the counterparty, following the principles outlined in Section 3.4.1
- b) The value of assets with potential settlement risk shall be determined as follows:
 - For margin lending transactions: The value of assets exposed to settlement risk is determined based on the principles outlined in Note 3.4.2.
 - For receivables, mature bonds and due debt instruments: This value is the value of receivables calculated according to their par value. The unpaid interests and related expenses shall be added, and actually received payments (if any) shall be deducted.
- The settlement risk value shall be increased in the following cases:
 - a) Increased by 10% in cases where the value of term deposits, loans, receivables, securities purchase agreements with resale commitments, securities sale agreements with repurchase commitments, and the total value of loans to a single organization, individual, or group of related organizations/individuals (if any) accounts for more than 10% to 15% of the securities trading organization's equity;
 - b) Increased by 20% in case the value of deposit contract, certificates of deposit, loans, due receivables, securities purchase contract with a commitment to resell securities, sale contract with a commitment to repurchase securities, total value of loans provided for an organization, individual and group of relevant organizations or individuals (if any), accounts for from 15% to 25% of the equity;
 - c) Increased by 30% in case the value of deposit contract, certificates of deposit, loans, due receivables, securities purchase contract with a commitment to resell securities, sale contract with a commitment to repurchase securities, total value of loans provided for an organization, individual and group of relevant organizations or individuals (if any), or an individual and parties related to him/her (if any), accounts for more than 25% of the equity.

NOTES TO FINANCIAL SAFETY RATIO REPORT (CONTINUED)

These notes are an integral part of and should be read in conjunction with the financial safety ratio report.

3. SIGNIFICANT FINANCIAL SAFETY RATIO REPORTING POLICIES (CONTINUED)

3.4.1 Settlement risk coefficient

Settlement risk coefficient is determined by partner and by time.

a) The settlement risk coefficient by partner

No.	Payment Counterparties for Securities Trading Organizations	Payment Risk Coefficient
1	Government, government-backed issuers, and central banks of OECD countries; People's Committees of provinces and centrally governed cities	0%
2	Stock Exchanges, Vietnam Securities Depository and Clearing Corporation	0.80%
3	Credit institutions, financial institutions, and securities trading organizations established in OECD countries that meet internal credit rating and other regulatory conditions	3.20%
4	Credit institutions, financial institutions, and securities trading organizations established outside OECD countries; or those established in OECD countries but failing to meet other internal regulatory conditions	4.80%
5	Credit institutions, financial institutions, securities trading organizations, investment funds, and investment companies established and operating in Vietnam	6%
6	Other organizations, individuals, and entities	8%

b) The settlement risk coefficient by time

No.	Overdue Settlement time for Securities Transfer	Risk Coefficient
1	From 0 - 15 days overdue, transfer of securities	16%
2	From 16 - 30 days overdue, transfer of securities	32%
3	From 31 - 60 days overdue, transfer of securities	48%
4	From 60 days onwards	100%

The value of secure assets

$$\text{Value of secure assets} = \frac{\text{Volume of secure assets}}{\text{assets}} \times \text{Asset price} \times (1 - \text{Market risk coefficient})$$

3.5 Operational risk

Operational risk value represents the amount corresponding to the potential loss arising from technical failures, system and process deficiencies, human errors during operations, capital insufficiency resulting from expenses incurred or losses from investment activities, and other objective causes.

The operational risk of a securities business organization is determined as the higher of the following: 25% of the expenses used to calculate operational risk of the securities business organization over the preceding twelve (12) months up to the calculation date, or 20% of the minimum charter capital required for the business operations of the securities company in accordance with applicable laws.

Expenses used for calculating operational risk of a securities company are determined as the total expenses incurred during the period, less:
